

Please note that this list has last been updated on 1/9/2019. The Education Department is not always made aware when a student on this list has found employment. The following list of students are willing to work outside of the area in which they reside. Student resumes are available upon request. We keep the most up to date version of our Student Job List available on our website at www.abcsemi.org -> Member Only Portal (this is an added benefit for ABC SEMI members only).
